WHO WE ARE

At The Brick, we are driven by a mission to confront the realities of poverty and its impact on local communities and individuals. We refuse to accept poverty and trauma as inevitable. Our vision is clear: to provide practical, hands-on support, working alongside those in need to help rebuild lives, while actively addressing and mitigating the root causes of poverty. We understand that the world is changing at an unprecedented pace. Tackling the complex challenges facing our communities today demands fresh perspectives and innovative approaches. Together, with your support, we can make a meaningful difference.

WHAT WE DO

Operating in some of the most deprived areas in England, we work across five key areas: housing, personal development, food and health, financial wellbeing, and training and employment.

Our mission is to make life affordable for all, treating poverty and homelessness as social justice issues. By providing person-centred, wrap-around support, we aim to empower people with choices and opportunities.

Our action-oriented approach focuses on:

Meeting immediate needs –

We RESPOND

Equipping people for independent living – **We RESTORE**

Advocating for social justice –
We REFORM

We understand that challenges rarely exist in isolation. Homelessness, mental illness, substance misuse, violence, and destitution often intersect, creating overwhelming barriers.

For those facing the greatest struggles, navigating support systems can feel impossible. That's why we

offer practical help and equip people with the skills and confidence to regain control of their lives and build a brighter future.

“We chose The Brick as our charity of the year, as it is important for us to support a local charity for local people. Our branch is in the heart of the Wigan community and most of our customers are also Wigan-based. We have seen first-hand the poverty and the devastation from the cost-of-living crisis and as a national company, we are in a good position to support the Brick.”

Peter Jackson, Branch Manager at Plumbase
